

Fire Safety Product

The only tool designed specifically for double glazing

Huge Sales Potential...

Designed specifically for the glazing industry this amazing new patented product has seen massive interest from fire fighting professionals, the emergency services, off-shore equipment suppliers, architects, safety organisations, window fabricators, retail outlets, fire safety officers, commercial and industrial building managers, vehicle refurbishment companies, rail authorities etc.

Marketing

Fantastic opportunity to sell to your existing customer base or penetrate new markets under the new RRO 2005 (Fire Law). Thousands of fire related deaths and injuries are reported each year in the UK alone...

Need convincing?

A mother and her young daughter died recently after they were trapped in a burning bedroom by the locked windows...

As flames engulfed the property the mother grabbed her four-year-old daughter and tried to escape but could not find the key for the PVC windows.. Neighbours had to restrain the owner as he desperately tried to get back into the burning building to try and save his wife and young child

Our worst nightmare...

Two versions available: Light & Industrial (in red or green) with free wall holder
